Commitment to achieving Net Zero

[Minitouch LTD] is committed to achieving Net Zero emissions by 20**50**.

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 2024

Carbon Reduction Projects

Completed Carbon Reduction Initiatives

No significant environmental management measures and projects have been completed or implemented since the 2024 baseline. The carbon emission reduction achieved by these schemes equate to 0 tCO₂e, a 0%ge reduction against the 2024 baseline and the measures will be in effect when performing the contract.

In the future we hope to implement further measures such as:

1. *Reduction in Product packaging size*
2. *Increase in the number of Product units per box*
